

BEAUTY RESOLUTION NO.26

Black is so chic, no? This one is for Bethan!

The Oscars showed us that old fashioned glamour is back on the agenda. Red lips, slinky dresses and just set hair ruled the red carpet. But sometimes you just gotta give classic a kick up its chignon, if you know what I mean.

One of the key trends we are putting on money on this summer is the pout noir, all the impact of ruby red lips but with an added edge for a modern maquillage. We love the contrast of a deep dark black lip against a powdery white skin, or a slick gleaming set of graphite lips on darker skins.

Uber make-up artist Sharon Dowsett created a black lip look for our Superdrug spring summer look book. Metallics and black a go go. Barry M lipstick £2.95 at Superdrug.
